SUBJECT.

Reduction of Jodi in the Lands of Ramchandi Village, Submerged by Bramhapuri Dodkare

Indexed 96

Condemned

W D 83—GPE—50,000—24-7-16

Enclosing with his No. 76 dated 16-4-87

19-4-87

Memo

The following abstract of Ter: papers is submitted in continuation of the Dy Comm's letters in which all the necessary points are set forth. ——

1. The only point that requires consideration & determination is the claim of the Godidar of Karaikalli to the land said to be submerged by the Tank. Neither the Godidar nor the Talk nor any other office has any records to show what actual extent of land was being hitherto usually submerged.

2. The Ter: papers show that as the Western Side of the tank was closed in 1873-74 on the ground that it was unnecessary it is found that the capacity of the tank is increased (containing about 1/2 a foot of water in depth) that therefore the water-spread of the tank extends over

t
was closed in 1873/74?

3. What is the ~~loss~~ increase in submerged area due to the closing of the West Bund, which closing practically amounts to the increase of Capacity of the tank. ~~The~~

4. If this increased area the position in Godi Village should be ascertained & the Godidar should be compensated by reduction in the Jodi Amt. He is entitled to no compensation for loss of Crop, for with full notice of the increased capacity of the tank he ought not to have put down crops on the Submerged area.

5. When information for D.P.W & Rev. Dept. when each has D.C. to ~~grant to the~~ reduce the Jodi or Quit rent

over a large portion of land belonging to Karahalli, that the Survey Deptt has included this large portion within the land of Karahalli according to the boundary marks fixed as per razinama presented by the ryots of Karahalli & Bowringpet during Survey that the correct extent of the land subject to submersion is 56760 square yards or 11-11-0 5-13-8¼ according to the measurement made recently by the Taluk Sheristadar in the presence of the ryots of the two villages, that the said ryots have affixed their signatures to the measurement list that this extent corresponds with that shewn by the Survey Deptt, that the Amildar who inspected the spot has found that the said extent of land was formerly under the wet cultivation of the ryots of Karahalli only that a few marks of bunds

lands (called Eyre's Bund) of the fields as it is now, that the land subject to submersion now remains uncultivated and that the Builder recommends that a proportionate reduction in the Jodi amount may be granted to the petitioner Buchanna Kajaiya (Vide his report Nos 34 & 42 dated respectively 24th January '83 and 9th March '83).

3. The Dy Commr has not given any decided opinion on the subject and he merely forwards the papers to this office for final orders.

4. The petitioner states that he has sustained a great loss on account of the submersion of his lands since 1874 & that his loss for a year amounts to

200 - - - Rupees only and prays that orders may be issued for payment of the said amount of loss and for the grant of a proportionate reduction in the Jodi amount payable by

[redacted] on his village.

5. The jodi paid by the petitioner on his village is as specified below: ——

Jodi	——	Rs — A — P. 507 — 15 — 9
Quit rent and Local Fund		105 — 1 — 1
Total		613 — 0 — 10.

The papers now received do not furnish the area and assessment of the petitioner's village.

C. Venkatasiah.

Subal

Hodi & Pattikonda & Jonnagiri village & Jonnagiri village; the latter has been demarcated & boundary stones have been fixed in accordance with the agreement pertaining to the two villages.

On the side of the Jonnagiri village there is a foot path: the boundary stone runs along the foot path & touches: on the east of the two Hodis: on the east one metre west from Hatap: a boundary stone is fixed beyond the boundary stone in the field & belonging

[redacted]

Jonnagiri: Ramudu

that this Extent was measured by Surveyor Stone & Subbiah, Surveyor Stone in the west Kodi.

The Jonnagiri village pays Rs 507 as land assessment to the Sirkar.

OFFICE NOTE.

SUBJECT. Claim of the Jodidar of Karhalli, Bowringpet Taluk, that he is entitled to reduction of Jodi on the lands of his village submerged in 1873-74 owing to the repair of Bowringpett Sodlere tank —

LAST REFERENCE. Letter No. 4584/1417 dated 29th May 1895 from the Dy Commr, Kolar.

In the year 1873-74, the Bowringpett Sodlere was repaired by the Revd Fth & its capacity increased by closing one of the two (X) Kodis the tank had & consequently 15 acres - 23 guntas of land belonging to the Jodi Karhalli village were submerged.

2. In 1882, the Jodidar Déva-Kulakarni Bheka Lamanjaya claimed compensation for loss of crops on the submerged lands

(X) 1. West Kodi
2. East Kodi.

In this relation he refers to previous petitions relative remission or refund, prior 1874 - C.

and also reduction of proportionate jodi thereon. Petitioner's claim for compensation was not accepted* on the ground that he had been given previous notice of the increased capacity of the tanks, and in their Proc. No. 7814-86 of 23rd June 1888 Govt decided that he was entitled to a reduction of proportionate jodi on the A. & C. 15-23 above referred to, and the Survey Supdt was accordingly requested to give effect to this decision.

* vide Endorsement No. 2150/184 of 9-7-1887

Not upset -

3. In 1891, the Inamdar reported† that neither old assessment nor jodi was available separately for the wet lands of the Karhalli village, and therefore proposed that the full Survey Assessment of the Submerged lands (Rs. 62-4-9) might be deducted from the jodi Amount of the village. His proposal

† vide letter No. 65 of 4th March 1891 -

of the Irrigation was
Sanctioned in Govt Pre
No 3205-6/19 dt 16 June 1891.
Under the authority of the
aforesaid order, the Dy Commr
directed the Amildar to de-
-duct the sum of Rs. 62-4-7
from the accounts of the
village for the year 1891.
The Amildar carried out
the Dy Commr's order & in-
-formed the Jodidar of the
same.

4th August 1891, the Jodidar
petitioned the Amildar
saying that he is entitled
to reduction of Jodi from
1873-74 in which year the
lands were submerged and
since then no crops were
raised thereon. The final
report of the Amildar in
the matter is dated 22d
Sept. 1894, and after a
delay of about 8 months

+ Subsp —

deducting the full Survey-
assessment of the Submerged
Lands from the Jodi of the
village, & the date from
which such deduction
should be made, was not
specified.

(3). It is admitted by Govt
that the Lands were Sub-
-merged in 1873-74.

(4). The villagers of Bommig-
-pett have executed a Malka-
-zar to say that in 1874,
when the Land was regained,
the Jodidars Lands were Sub-
-merged, that Since then
the Lands have not been
available for cultivation
& consequently lying Banja

7. If the Jodidar's prayer
is granted, he will be en-
-titled to the refund of the
excess Jodi received from
him during the 16 years ending
1890-91 -

Submitted for orders

25/6/95

The Jodidar is
certainly entitled
to a refund from
1874 and a bill
must be submitted
to the Govt ought
to have authority
such matters
promptly - The
delay of this a
long period involved

the Dy Commr submits
the reference for the orders
of Govt.

5. It may also be submitted
here that the sum of Rs. 62-4-9
ordered in 1891 to be deducted
from the Jodi of the village
was allowed to outstand
in the accounts till now
& the Dy Commr's attention
was drawn to this fact in
Govt Progs No. 16314 of 6.4.95.
R.2364

6. The following points are submitted
for consideration: —

(1) In the order of 1888, the
Govt recognized the claim
of the Jodidar for reduction
of proportionate Jodi on
the submerged lands, &
Govt. it did not specify
the date from which
the reduction should take
effect.

(2) In the order of 1891 Govt
sanctioned the proposal
of the Dy Commr for

Revenue Department.

Sir,

I have the honor to acknowledge the receipt of your Official Memorandum No 521 of the 15th October 1882, forwarding for report a petition from Bandalamanjaiah Jodidar of Narahalli, Taluk Nelamangala now Bangalore Taluk, and in reply I beg to submit as follows:-

2. The Dodkere tank alluded to by the petitioner is situated at Bentikal village of Bommenahalli, and it has originally two waste weirs, one to the east and the other to the west of it, of which the former was on a higher position than the latter. In 1873-74, when master weir was closed on the ground that it was unnecessary, the Jodidar complained that a portion of the land attached to his Jodi village at some distance above the bed of the latter tank was submerged. Correspondence passed between the then Deputy Commissioner Mr. Richenzon and

and

3. Since the receipt of your official Memorandum under reply, I inspected the spot, and caused the matter to be closely enquired into, but to no purpose. There is nothing to show whether, and if so, to what extent the Jodidar's claim for remission is tenable. The Amildar of Bommiyapati in his arzi No 342 of the 24th October 1883 reports that meandering from the Bhavani lately fixed by the Survey Department as the bed of the Sirkar Kaul as boundary mark between Bommiyapati and Jodi Karahalli, there is the water spread on the side of the Jodi village extends to K—K—P 5—13—8½, which the Mgrs of Bommiyapati and others declare to be the water shed of the Sirkar Kaul from time immemorial. In the absence of accounts or other documentary evidence on both sides it is not safe to make any alterations in the existing state of things in the case—

[illegible] [illegible] on the subject, and the Chief Commissioner of Land Offices found that there was no statement or [illegible] for the submersion of any additional land by the Corporation, to the detriment of the petitioner, by the [illegible] of their sluices, in consequence of the eastern weir being not level of the eastern weir was not raised, and ordered accordingly, on the 21st August 1845, to the effect that no notice could be taken of the petitioner's claim, until he produced accounts to shew how much of his land had formerly been submerged by the water of the Hutt River.—

The petitioner has produced no account or documents tending to support this claim to the land which forms part of the Bed of the Hutt River, nor is there any record in the Land Office, and from inquiries to that behalf amount of land was reasonably [illegible] by the [illegible] River to be—

Kolar Deputy Commrs
No 714/294 dated 11th Septr 1884,
Submitting report on the
petition of Buchalimmarajia,
Jodidar of Karahalli,
Bowringpett Taluk, about
the submergement of a portion
of land attached to his Jodi
village.

Papers returned

Camp No 19 Shimoga dt
5th March 1886.

Order thereon:-

The Inamdar's claim
to the land submerged is not
established; the Deputy
Commissioner, however,
reports that the Survey
Boundary marks between
the Jodi village and the
Government village support
the Inamdar's claim to the
extent of 5-13-8 1/2. The
grounds on which the

Survey department decided the Boundary should be ascertained.

Further report is necessary for final disposal of the case. Vernacular papers are returned.

Bangalore.

Sir,

With reference to the Revenue Proceedings cumi No. 9, dated the 5th March last, calling for further report on the petition of Basava-maraiya, Jodidar of Narahalli, Bommenahalli Taluk, about the annexation of a portion of the land attached to his Jodi village, I have the honor to submit that judging by the boundary marks filed by the Amildar, Channarayapatna, the total extent of the Jodidari land under Taluk-wise is 5—13—21 but the petitioner has not shown by any satisfactory evidence how much of it has been actually cultivated and how much, if any at all, by the clearing of the western jungle by Government Taluk. The records show that, on the contrary, the heirs of Bommegowda have all along paid the assessment on the entire area of the Taluk land that

have the honour to be Sir,

Your most obed.t Servant,

[illegible]

Deputy Commissioner.

D.C.

2. As directed in the Lieut.t's order under reply, I addressed the Survey Superintendent with a view to ascertain on which grounds the boundary between the Jodi and Kharnibita was decided, and that officer furnished with his annexure (vide N.o 3 of the 12.th July/85 the Survey Khaisa Book N.o 1500 of the 3.d Item, where it is stated that the boundary was decided in accordance with a Panchnama prepared by the Mukh. of the adjoining villages.—

3. The original papers bearing on the subject as per accompaniment have since been submitted for ready reference and shall return when no longer required.—

17th.

Sir

With reference to your Decisn
No 811, dated 9th instant, fur-
-nishing particulars as to the
area of the Karéhalli Jodi
village lands, submerged
by the raising of the Kodi
of Bowringpet Tank, I am
directed by the Dewan
to request that, as already
desired in this Office No 1330,
dated 23d ultimo, last,
you will be so good as to
state, what is the value
of the land in question, and
whether, in your opinion,
it is necessary to award,
to petitioner, any Compen-
-sation for the submerged
land over & above the
reduction of Jodi already
sanctioned.

I have &c.

R 8(21)

Comp No 2683 of 24-2-35

To Secretary
D.W.W.

Re letter No. 25-85 S

Re June 1887, in the matter of the Submersion of some lands belonging to the Kodi Kurakally Estate owing to the improvement of the Koonimpatti Dodderi tank.

With reference to para 2 of the above wherein it is stated that the water level was never raised, the Dewan observes that there is no allegation of the raising of the level of any well & requests that Major Kensington may be asked to state

1st whether the West Kodi was lower than the East Kodi, & if so what was the difference in the levels of both Kodis.

2nd was not the ~~East~~ West Kodi closed, ~~only~~ the East one alone being considered sufft

The Dewan would also like an opinion being made in the D.W.W. Office on any papers or reports bearing on the subject.

Executive

Centre Engineer's Office 12th Oct. 83
Waterworks Extension Kalgoorlie.

Copy of Specification for the Supply of Cast Iron Pipes & Special Castings required for the Kalgoorlie Waterworks Extension.

1. The Pipes are to be of the best description of Cast Iron, free from cinder holes, honeycombing, cracks, or other defects, and are to be sound, true to bore, and of uniform thickness throughout. They are to be cast vertically in dry sand moulds, and are to be coated with Dr. Angus Smith's composition, while hot, by dipping.

2. Each pipe is to be tested by hydraulic pressure to 300 lbs per square inch, and must withstand the same without showing any sign of weakness. Any pipe which shows signs of weakness under the test, or which fails to withstand the test, will be rejected.

3. The pipes are to be cast with spigot and faucet ends, and are to be of the following lengths, viz:- 9 feet, 6 feet, 4½ feet, 3 feet, 2 feet, 1½ feet, 1 foot, ½ foot, and ¼ foot. The thickness of the pipes is to be as follows:-

Diameter of Pipe	Thickness of Metal
6 inches	⅜ inch
4 inches	⅜ inch
3 inches	⅜ inch

The thickness of the metal of the faucet end of the pipe is to be ⅛ inch more than the thickness of the metal of the spigot end of the pipe.

4. The pipes are to be cast with a bead round the spigot end, and a groove round the faucet end, to receive the lead joint.

5. The pipes are to be cast with lugs for bolting the flanges of the special castings to the pipes.

6. The pipes are to be cast with a bead round the faucet end, and a groove round the spigot end, to receive the lead joint.

7. The pipes are to be cast with a bead round the faucet end, and a groove round the spigot end, to receive the lead joint.

8. The pipes are to be cast with a bead round the faucet end, and a groove round the spigot end, to receive the lead joint.

9. The pipes are to be cast with a bead round the faucet end, and a groove round the spigot end, to receive the lead joint.

10. The pipes are to be cast with a bead round the faucet end, and a groove round the spigot end, to receive the lead joint.

11. The pipes are to be cast with a bead round the faucet end, and a groove round the spigot end, to receive the lead joint.

12. The pipes are to be cast with a bead round the faucet end, and a groove round the spigot end, to receive the lead joint.

13. The pipes are to be cast with a bead round the faucet end, and a groove round the spigot end, to receive the lead joint.

14. The pipes are to be cast with a bead round the faucet end, and a groove round the spigot end, to receive the lead joint.

15. The pipes are to be cast with a bead round the faucet end, and a groove round the spigot end, to receive the lead joint.

16. The pipes are to be cast with a bead round the faucet end, and a groove round the spigot end, to receive the lead joint.

17. The pipes are to be cast with a bead round the faucet end, and a groove round the spigot end, to receive the lead joint.

18. The pipes are to be cast with a bead round the faucet end, and a groove round the spigot end, to receive the lead joint.

19. The pipes are to be cast with a bead round the faucet end, and a groove round the spigot end, to receive the lead joint.

20. The pipes are to be cast with a bead round the faucet end, and a groove round the spigot end, to receive the lead joint.

21. The pipes are to be cast with a bead round the faucet end, and a groove round the spigot end, to receive the lead joint.

22. The pipes are to be cast with a bead round the faucet end, and a groove round the spigot end, to receive the lead joint.

23. The pipes are to be cast with a bead round the faucet end, and a groove round the spigot end, to receive the lead joint.

24. The pipes are to be cast with a bead round the faucet end, and a groove round the spigot end, to receive the lead joint.

25. The pipes are to be cast with a bead round the faucet end, and a groove round the spigot end, to receive the lead joint.

26. The pipes are to be cast with a bead round the faucet end, and a groove round the spigot end, to receive the lead joint.

27. The pipes are to be cast with a bead round the faucet end, and a groove round the spigot end, to receive the lead joint.

28. The pipes are to be cast with a bead round the faucet end, and a groove round the spigot end, to receive the lead joint.

29. The pipes are to be cast with a bead round the faucet end, and a groove round the spigot end, to receive the lead joint.

30. The pipes are to be cast with a bead round the faucet end, and a groove round the spigot end, to receive the lead joint.

Enclosures

Survey No. 47

1885

From The Supt Ootacamund

To The Chief Secy to the Govt of Madras

Dated

Despatched 19th January 1886

Received

ENCLOSURES No.

No. 5276 of 1885

Forwarding his petition on the question of compensation for loss of land submerged in the village of Kandalli by raising of the level of the Bore tank.

50

7506

182

S. Wilson C. 1884-02-21

Supt Ootacamund 25/1

Chief Secy 25/1

The Petitioner does not claim any compensation therefore that point may be dropped. His prayer is that the time of year likely the submergence might not be reported from the village, that he may be permitted to raise a crop as it is now there is no water. If the permission be obtained the land is thought objectionable, it may be rejected, the Petitioner attained to use the land if he wishes to do so, for last year, then he will be quite contented. This matter must be simplified.

30/1/86 PKG.

I entirely agree with Mr Wilson in the opinion above given

31st Jany 86 CKM

I regret I am unable to concur with my colleagues. The Jodi land has been reduced on account of the land submerged & cannot be allowed have the land for nothing.

I agree with the resolution & the Supt's claim for compensation must be rejected

Read:- Letter from the Supg-Engineer Kurnool, dated, No 2593 dy. 7th June 1888, forwarding copies of correspondence regarding the submersion of land belonging to the Jodi village of Harahalli owing to the improvement of the Bommighatta Doddakere tank -

Read also Surveyor Supts letter No. 8118 876 dy. 4th read 19th Jany. 1888.

Order thereon - Dated 30th May 1888 - 23-6-88

The Supt. Engrs report read above relates to the improvement of the Bommighatta Doddakere tank carried out in 1884 - The level of the Waste Weir was not raised then, and there is now no question upon that point.

It however appears that the tank formerly had two W. Ws. and when it was repaired by the Revenue authorities in 1873-74 the lower W. W. was closed as being unnecessary, thus virtually increasing the Capacity of the tank - The level of the W. W thus closed is not now ascertainable, but from the report of Supt of Rev Survey it appears that the tank at present level submerges 15 acres 23 Guntas of land formerly under

wet cultivation. It is not
possible to hold that the
whole of this land is an
encroachment by the Inamdar
~~X~~ on the tank bed. The
boundary settled by the
Survey Dept is in accordance
with the Rayjinamahs
of the villages concerned.
At a local enquiry subsequently
held by the Amildar, the
~~X~~ limits of the old
Karahalli village
have been clearly
ascertained and corresponded with the line of
boundary laid by the Survey
Dept. Under such circumstances
the Govt. decide that the
the Inamdar of Karahalli is entitled
to a reduction of Jodi
~~Jodi~~ proportionate
to the assessment of
the submerged area i.e.
15 Acres & 23 Guntas,
~~X~~ the Supdt of Rev Survey

57

Will be requested to give effect
to this decision as long as
possible.

No. 1417

Enclosure No. 1 file

Requesting instructions whether Govt Proc: No 3205-6 dated: 6th June 1891 sanctioning the reduction of a proportionate amount of Jodi, on certain lands of Karahalli Village, has retrospective Effect.

Returned with remarks

Reference to Govt.

Office note

From Deputy Commissioner Kolar
Dated 29th May 1895.

To

The Chief Secretary to the
Government of Mysore.

Sir,

Adverting to Government Proceedings No. 3205-6/19 dated 16th June 1891 sanctioning the reduction of a fixed assessment of Rs. (Rs. 62-4-9) on 15 acres and 23 guntas of Kundalli land submerged by the improvement of the Kunthinpet tank, I have the honor to state that the reduction has been allowed from Khanee (1891/92) but the Sadidar claims the same with effect from 1893/94 in which year one of the waste weirs of the tank was closed.

2. The Government order sanctioning acknowledgment being silent as to the date from which the reduction should be granted, I request instructions whether

it

it has retrospective effect in which case a refund bill will be submitted for the amount paid by the Indidar in excess from '8,13,½ to '8,0,0'.

3. The Memorandum records bearing on the subject as per accompanying Receipt are herewith submitted for reference and filing, returns when no longer required.

I have the honour to be

Sir

Land Forfeiture

To. 76

The Dy Commr
Kolar District.

Dated 8/37 Fort Hill.

No 1013 / Fl 720 Dt 18th May 22

Dy Commrs Lr No 3968 of 15th April 1896, Submitting, as per Govt Pro: No 172 / Fl. 21 of 1st July 1895, a refund bill for Rs. 1174-2-0 being the amount of Jodi & Local Cess recovered during the years 1873-74 to 1890-91 from the Jodidars of the Harhalli village, Bonnerighet Taluk, on account of ~~portion~~ of his Jodi lands submerged by the Bonnerighet Doddakere improvement

In returning the bill & the vernacular papers received with the above, has the honor to observe as follows:—

In Govt Pro: No 3205-6 / 19

dated 16th June 1891, the full assessment, viz: Rs. 62-4-9, on the 15 acres - 23 guntas submerged by the improvement of the tank, was ordered to be deducted from the jodi amount payable on the whole village. The Jodidar is accordingly entitled to a refund of ~~Rs. 62-4-9~~ ~~per annum~~ Rs. 1121-5-½ (exclusive of Local cess) for the years from 1873-74 to 1890-91 at Rs. 62-4-9 a year. But in the ~~refund~~ bill Submitted the amount to put down as Rs. 62 only. ~~for years~~. How this ~~figure~~ ~~calculation~~ has been arrived at is not clear. Moreover ~~made~~ ~~requisite~~ ~~explanation~~. Taking Rs. 62-4-9 to be the correct amount, the Local cess thereon for the 18 years will be Rs. 60-5-1, ~~not~~ ~~included~~ Rs. 53-2-0 as entered in the bill.

appears to be

refundable per annum

9-11-10	From 1873-74 to 1877-78 at Rs. 1-15-2 a ne ac.
50-9-3	From 1878-79 to 1890-91 at Rs. 3-14-8 a ne. ac.
60-5-1	

2. The Dy. Comm^r is therefore requested to ~~have the figures verified again, the discrepancy if any, explained, and a revised refund bill submitted accordingly~~.

Explain the discrepancies pointed out above & submit a revised bill if necessary
